Experienced Software Developer with a passion for creating immersive user experience. I have strong knowledge in ReactJS, NextJS, TypeScript, HTML5, CSS3, JavaScript (ECMAScript latest versions), Redux, NodeJS, ExpressJS, MongoDB, MySQL and I am aware of Web Content Accessibility Guidelines, optimization techniques, React Profiling, AWS S3 and AWS EC2. I also have a good sense of design and a willingness to learn new things.

🧠 Skills

HTML │ CSS │ JavaScript │ TypeScript │ ReactJS │ NextJS │ Redux │ Redux Toolkit │ D3JS │ SCSS │ Bootstrap │ Tailwind CSS │ Responsive Web Design │ NodeJS │ ExpressJS │ MongoDB │ MySQL │ Storybook │ AWS S3 │ AWS EC2

🎓 Education

Bachelor of Engineering, *MIT Academy of Engineering*   2015 – 2019
CGPA: 8.31

HSC, *Dattakala International School & Jr. College*   2015
Percentage: 72.92

SSC, *Sadashivrao Mane Vidyalaya*   2013
Percentage: 94

💼 Professional Experience

Associate Software Engineer, *Tech Mahindra*   12/2021 – 03/2023
Tech Stack: ReactJS, HTML, SCSS, TypeScript, D3JS, Storybook, Git, Bitbucket, Jira, NPM

- Worked as a Software Developer on the development of reusable components and showcasing the developed components in the storybook.
- Learned D3JS, TypeScript and implemented these concepts to develop reusable components which reduced the creation of new components by 70%.
- Developed new features for the components, resolved issues in the components.

🗋 Internship & Certifications

React, NodeJS, Express & MongoDB - The MERN Fullstack Guide,
Udemy

React The Complete Guide, *Udemy*

Newton School Coding Bootcamp, *Newton School*   06/2021 – 11/2021

Sharpener Coding Bootcamp, *Shapener Tech*   09/2023 – present
Created projects like ecommerce website, expense tracker, mailbox-
client.

📂 Projects

Expesne Tracker ⧉
Technical Stack Used: ReactJS, HTML, CSS, JavaScript, React-Router-Dom, Razorpay Payment
Gateway, NodeJS, ExpressJS, MySQL, Sequelize, JWT Authentication, nodemailer, AWS S3.

Features:
- User signup, login, reset password, logout and responsive web design.
- Add, Delete Expense.User can see Full Expense Report.
- Premium users can download Full Expense Report, see daily/weekly/monthly/yearly Expense
  Report, see previously downloaded files, see Expense Leaderboard.

FavPlaces ⧉
Technical Stack Used: ReactJS, HTML, CSS, JavaScript, React-Router-Dom, NodeJS, ExpressJS,
MongoDB, JWT Authentication, Google Maps API

Features:
- User signup, login, logout and responsive web design.
- User can Add, Edit, Delete places.
- User can see other users and their saved places.
- Automatic generation of map on inputting address

Students Manager ⧉
Technical Stack Used: ReactJS, Typescript, HTML, SCSS, JavaScript, React- Router-Dom,
NodeJS, ExpressJS, MongoDB

Features:
- Add, Edit, Delete student, Delete all students, Students Statistics.
- Sort students according to marks or attendance, download the students data from
  leaderboard.
- Show students data in the form of card, search students by name or roll number.
- It is a progressive, responsive web app.
